

EDIT - bug #7409

Put new Team member to the end of the list when adding

Description

When a new team member is added to the list of team members it shows up on top of the list in the details view. This is unexpected as team members are sorted and a new team member is expected to be at the end.

Note: the team member IS added to the end, but this is shown only after reloading.

By the way, it would be nice to be able to move the team members within the list (but careful that this does not happen accidentally)
