EDIT - bug #7484

Protected titleCache handling not correct in Reference detail view

06/15/2018 08:41 PM - Andreas Müller

Status:	Closed		**Start date:**	
Priority:	Highest		**Due date:**	
Assignee:	Katja Luther		**% Done:**	100%
Category:	taxeditor		**Estimated time:**	0:00 hour
Target version:	Release 5.3			
Severity:	normal		**Found in Version:**	

Description

What I did:

- Opened a reference in bulk editor which had a protected titleCache/abbrevCache not protected => only the title was set to orange
- adding a single letter to the titleCache changes 6 fields to orange (type, title, author, inref, series, volume)

Reference type was "Generic".

Is this related to e4? Or to new NAT table #7439? Or never was correct (somehow related to #3737)
