

EDIT - task #7526

move IdentifiableDaoBase.findByReferenceTitle() into ReferenceDao

06/28/2018 05:29 PM - Andreas Kohlbecker

Status:	New	Start date:	
Priority:	New	Due date:

Category:	cdmlib	Estimated time:	0:00 hour
Target version:	Unassigned CDM tickets		
Severity:	normal		
Description			
findByReferenceTitle() searches for "title" which only exists in Reference.class therefor it makes no sense having this method in service and dao classes for IdentifiableEntities. This is confusing as the method name can be interpreted in various ways depending on the base class. e.g. Think on TaxonService.findByReferenceTitle() this refers semantically to the nomenclatural reference.
