

EDIT - bug #7541

Insufficient rights lead to missing focus in name editor

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	50%

Target version:	Release 5.6	Found in Version:	
Severity:	major		
Description			
WGB:			
<p>wir haben angefangen die Iresines einzugeben. Auf Sophias Rechner traten dabei merkwürdige Fehler auf, und zwar konnte sie den Cursor im NameEditor nicht setzen – das Fenster bekam zwar den Fokus (es wurden Details der letzten Auswahl angezeigt), aber nicht für Eingaben, der blieb auf dem Search bzw. Navigator stehen. Durch hin-und herschalten zwischen den Fenstern bekam man den Cursor dann irgendwann hin. Aber nach Ändern eines Eintrags und Safe gab's den u.a. Fehler.</p>			
<p>Das mit dem Cursor lag eventuell daran, dass die Rechte nicht stimmten. ...</p>			
WGB:			
<p>das mit dem fehlenden Fokus im NameEditor tritt häufiger auf – nach einiger Zeit kann man Einträge nicht mehr auswählen.</p>

we should urgently address the rights issues in taxeditor. Otherwise soon all users that should have limited rights will have admin rights.

the missing possibility to set the focus on the name editor was because of a wrong permission check.

The problem of this ticket is solved. With rem_conf_am and the nightly editor I could not reproduce the missing focus.

- % Done changed from 40 to 50

I tested on nightly and rem_conf_am:

- Created a user "noTaxon" and a group "rightless" with two authorities ROLE_PROJECT_MANAGER and TAXONNAME.[]
- Logged in with user and opened a taxon
- It was not possible to click inside the name editor but nothing unusual happened
- It was possible to edit the taxon in the details view but saving did not work due to restricted rights

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Müller to Katja Luther

Hmm, can someone explain what the expected behavior is? To me it sounds strange that the name editor is not editable but the details view is editable.

Which rights does a user need to allow this?

Also it looks like the user can create a fact in facts view (but not editing it or only the time scope, etc.). Shouldn't the creation of a fact be forbidden already? (This is maybe only a related issue).

The user is not allowed to save the changes. But the UI should not allow to create or update facts or anything else if he/she is not allowed. I think there is a ticket already.

Can you try to link the ticket. Or if it not yet exists create a new one. Correct handling of rights will become an important issue soon so we should try to handle (or at least document all problems) soon.

#19 - 04/11/2019 10:56 AM - Andreas Müller

So do I understand correctly that **this** ticket is only about setting the focus in name editor and not about the other rights issues? Then we can close the ticket (but at least for the details view issue should have another high priority ticket). Also we should rename it to make the focus of the ticket clearer.
