<b>Severity:</b>	normal		
<b>Description</b>			
Hallo,			
bei langen Synonymlisten scrolled die Liste nicht nach oben, wenn man ein Synonym dem Namen oder einem anderen Synonym durch drag-n-drop als heterotypisch zuordnen will, das weiter oben im nicht sichtbaren Bereich steht.

this is not as easy as it seems, we need to write our own listener which listen on the mouse position and scrolls, when the end of the visible part is reached (an example for a table we can find here: <https://stackoverflow.com/questions/46905684/scroll-table-on-drag>)
