- Status changed from New to In Progress

- Assignee changed from Tilo Henning to Katja Luther

- Target version changed from Unassigned CDM tickets to Release 5.15

The status of this ticket to me is unclear. There are some commits so I guess it is at least in progress.
I don't know why it was assigned to tilo. Was it for review already or for extending the list?

Can you check if the 2 issues work already or how much work it will take to implement them. Then we could discuss if we include them into 5.15.
