

EDIT - bug #7585

RegistrationCuratorRoleProbe does not only check the ROLE_CURATION

07/25/2018 04:48 PM - Andreas Kohlbecker

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	cdm-vaadin	Estimated time:	0:00 hour
Target version:	Release 5.3	Found in Version:	
Severity:	normal		
Description			
the check done in this class seems wrong:			
<pre>return a.equals(RolesAndPermissions.ROLE_CURATION)</pre>			
<pre>// doing faster regex check here instreas of using CdmAuthoritiy.fromString() a.getAuthority().matches("^Registration\\.\\.\\.\\[.*UPDATE");</pre>			
Can it be replaced by the new eu.etaxonomy.cdm.api.utility.RoleProber?
