Hallo Henning,

zu 7)

Diese Klammern kann ich problemlos entfernen, sie werden derzeit nur bei phycobank spezifischen sachen angezeigt und falls du sie hier nicht vermisst werden sie niemandem Fehlen.

Die werden tatsächlich nur im vaadin ui angezeigt:

The screenshot shows two entries from the Phycobank interface. The top entry is for *Amphora caribaea* Wachn. & E.E. Gaiser, with a URL of <http://phycobank.org/100021>. The bottom entry is for *Amphora semperpalorum* Wachn. & E.E. Gaiser, with a URL of <http://phycobank.org/100015>. Both entries include the user 'admin' and a description of the specimen's location and collection details.

zu 7: Okay, wenn wir hier zwischen Vaadin User Interface und EDIT Portal unterscheiden können. Im Vaadin UI stören mich die Klammern nicht, aber im EDIT Portal. Das Portal sollte eher wie eine saubere Publikation aussehen.

Stört es wenn sie im vaadin-UI fehlen?

Nein, stört überhaupt nicht.
