

## EDIT - feature request #7643

### cdmlight export: for bibliographic short citation use the freetext of the date as default

08/09/2018 10:19 AM - Katja Luther

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Highest	<b>Due date:</b>	
<b>Assignee:</b>	Katja Luther	<b>% Done:</b>	100%

<b>Target version:</b>	Release 5.2		
<b>Severity:</b>	normal		
<b>Description</b>			
mail of WB:			
noch ein Problemchen mit dem Output:			
Nepenthes Datenbank – Da habe ich die folgende Referenz: siehe "files"			
eingegeben habe ich als Date nur den Freetext. Das wird nicht in die Bibliographic Short Citation in der Ausgabe einbezogen, die Ausgabe dort lautet "Berendsohn()" Wie soll ich das Date eingeben, damit "Berendsohn (2017+)" als Kurzzitat herauskommt? Falls das noch nicht geht, können wir dann eventuell auf den Freetext bevorzugt zugreifen – also erst den Eintrag im Freetext in die Klammer, wenn der nicht vorhanden, dann das "echte" Datum?			
Herzlichen Gruß Walter

fix NPE in cdm light export

#### History

##### #1 - 08/09/2018 10:20 AM - Katja Luther

- Status changed from New to Resolved

##### #2 - 08/09/2018 11:07 AM - Andreas Müller

This will throw an NPE if datePublished does not exist!!

Also it is a bit dangerous as freetext in some cases may be used for something else. As the "+" issue is a general one that comes with citing databases/websites I created a new ticket [#7644](#) to integrate an "continued" flag into TimePeriod so this issue can be handled systematically and does not need be handled via freetext. We also need it for E+M by the way.

Is this fixed??

**#6 - 08/17/2018 11:00 AM - Katja Luther**

yes this is fixed.

**#7 - 08/20/2018 01:03 PM - Katja Luther**

- Status changed from *Feedback* to *Closed*

- % Done changed from 0 to 100

**#8 - 08/20/2018 01:19 PM - Andreas Müller**

As mentioned in [#note-2](#) this implementation is critical. I left a note in [#7644](#) to maybe revert once [#7644](#) is implemented.
