Description

... to indicate that a reference (usually a database) is continously edited and has no end date (yet).

E.g. Berendsohn(2018+)

We may also want to revert changes in #7643 once this ticket is fixed and released and data adapted.

We may not need a model change for this.

Instead we use a defined constant end date 9999-12-30 witch stands for "continued".
This way we do not need a separate column.

Implemented so far. Still need to adapt parser (currently only parsing of dd.mm.yyyy is supported for testing).

if the continued flag is set and then setContinued(false) is called, this.end should be set to null
