

EDIT - feature request #7654

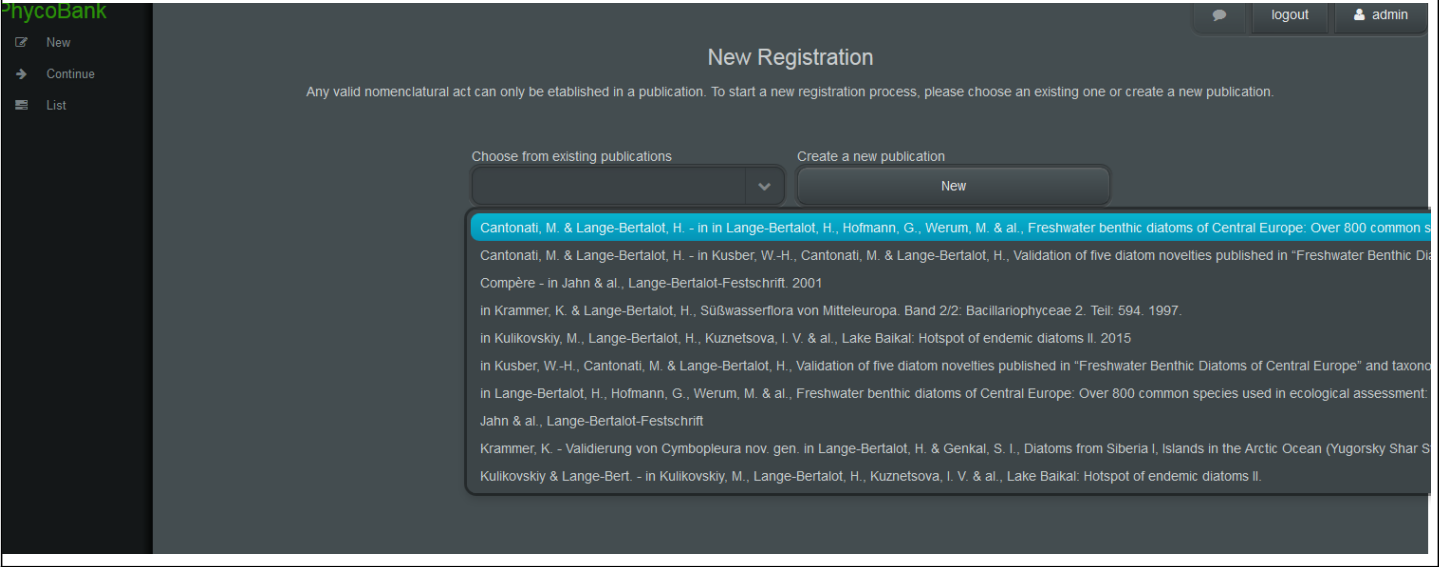

New registration page existing publications combobox does 'begins with search' on author names

08/14/2018 06:51 PM - Wolf-Henning Kusber

<b>Status:</b>	Duplicate	<b>Start date:</b>

<b>Target version:</b>			
<b>Severity:</b>	minor		

**Description**

The search on bibliographic authors is a full text search.  
Example "Lange-Bert" (see screen shot) is searching for the string, but I would like to see only publications beginning with this author.

The screenshot shows the 'New Registration' page in the PhycoBank application. It features a sidebar with 'New', 'Continue', and 'List' options. The main content area has a message about valid nomenclatural acts and two buttons: 'Choose from existing publications' and 'Create a new publication'. A dropdown menu is open under the first button, displaying a list of publications starting with 'Cantonati, M. & Lange-Bertalot, H.'.

History

- #1 - 08/16/2018 09:47 AM - Andreas Kohlbecker
  - Subject changed from Vaadin PhycoBank Search begins with to New registration page existing publications combobox does 'begins with search' on author names
  - Description updated
  - Category set to cdm-vaadin
- #2 - 05/28/2019 02:39 PM - Andreas Kohlbecker
  - Status changed from New to Duplicate
  - Target version deleted (Unassigned CDM tickets)

this has been solved in another ticket
