<b>Severity:</b>	normal		
<b>Description</b>			
copied from <a href="#">#7706</a> :			
<ul style="list-style-type: none"><li>• layout: the form type changer is not moved down and now appears beside the warning. This is misleading. Also the whitespace between label and warning is pretty large and should be reduced if possible.</li><li>• layout general: it would be better to have the warning on top, not below the media label. This seems to be a general issue for these types of details view warnings. Is it possible to move it up?</li></ul>
