- Status changed from New to Resolved

- % Done changed from 0 to 50

Applied in changeset [taxeditor|a9c45e1e62a5e2b4af8107dba4cb1a27f9f3c076](#).

**#2 - 10/23/2018 01:45 PM - Patrick Plitzner**

- Assignee changed from Patrick Plitzner to Andreas Müller

- Target version changed from Unassigned CDM tickets to Release 5.4

**#3 - 10/23/2018 07:36 PM - Andreas Müller**

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Müller to Patrick Plitzner

This has been reverted due to failing test. Or did we only ignore the test?

How should I test it if feature is still available?

**#4 - 10/24/2018 07:12 AM - Patrick Plitzner**

- Assignee changed from Patrick Plitzner to Andreas Müller

This has been reverted due to failing test. Or did we only ignore the test?

How should I test it if feature is still available?

The test pings a list of CDM servers defined in `cdm_remote_servers.json`. I fixed the test by ignoring the *localhost* CDM server because this is not (yet?) running when the test is executed.

To test this issue you could use the nightly build, connect and select *edit-test* in the list of CDM servers while **not** having a VPN connection active.

**#5 - 04/16/2020 06:25 PM - Andreas Müller**

- Status changed from Feedback to Closed

- Assignee changed from Andreas Müller to Patrick Plitzner

- % Done changed from 50 to 100

With the current timeouts and connection error handling this ticket seems to be fully fixed.
