Name mit validated Name, Bei der neuen Reference des Validated names knallte es bei der Auswahl des Autors			
Ich hatte Abas berolinensis A.Braun eingegeben, dann als validated name noch mal Abas berolinensis neu eingegeben (der ist ja vor speichern nicht in der Auswahl). Ich glaube dann eine neue Referenz angelegt zu haben und bin in die Auswahl der Autoren gegangen und habe einen vorhandenen ausgewählt.			
Habe das mit Abas cerolinensis noch mal probiert und alles lief fehlerfrei.
