Description

The PhycoBank team agreed not to implement an (Vaadin) editor for classification fragments (= classification in a reference including nomenclatural acts). The original idea was to create a widget which would have been looked like:

If higher rank names are newly published, they are subject to registrations. In case new classification fragments are needed, this can be performed by an import, using the structured excel-file, agreed for imports from the Syllabus (see Ticket #7420)

Workflow: PhycoBank is collecting such data. Imports are running each 3 or 6 month (Andreas M.?)

The agreed data form:

A	B	C	D	E	F	G	H
phylum	classis	subclassis	ordo	subordo	familia	subfam	genus
Glaucocystophyta	Glaucocystophyceae		Glaucocystales		Glaucocystaceae		Glaucocystis

History

#1 - 12/11/2018 06:07 PM - Wolf-Henning Kusber

- File picture146-1.png added

After discussions with Andreas & Andreas the Excel form was slightly changed.
Collumn A contains the UUID of the reference (new)

Collumn B and following contain values for the hinger ranks in line 1
Collumn J "Stop" includes a hashtag to stop the import within one line (new)
Collumns H etc. may include internal information not relevant for the name import.

Each field may contain a name or is empty. In the latter case, no name is provided by the reference. All colors are just internal information not relevant for the name import.

A	B	C	D	E	F	G	H	I	J	
reference	phylum	classis	subclassis	ordo	subordo	familia	subfam	genus	stop	
b0d03fab-fe6	Glaucocystophyta	Glaucocystophyceae		Glaucocystales		Glaucocystaceae		Glaucocystis	#	p.5
b0d03fab-fe6	Glaucocystophyta	Glaucocystophyceae		Cyanophorales		Cyanophorceae		Cyanophora	#	

#2 - 12/13/2018 10:26 AM - Andreas Kohlbecker

- File picture358-1.png added

- Description updated

#3 - 02/22/2022 01:37 PM - Andreas Müller

- Status changed from New to Feedback

How far is this still open? The ticket description says that it was decided not to implement this.

#4 - 02/22/2022 03:03 PM - Andreas Müller

- Related to task #7420: Import for higher taxon graph for phycobank added

#5 - 02/22/2022 03:03 PM - Andreas Müller

- Status changed from Feedback to Closed

- Target version deleted (Unassigned CDM tickets)

I close this ticket. Henning, please open new ticket if there are remaining issues.
