<b>Description</b>

I checked the complete list. With some ranks (mostly not relevant for PhycoBank, I have problems).			
"species aggregate" should also have an additional uninominal (to link it to a given genus).			
"species group" should also have an additional uninominal (to link it to a given genus).			
"candidate" is not relevant to PhycoBank, but I would expect that 99-100% of candidates in bacteriology will be a species -> delete "infraspecific epithet" there.			
"unknown rank": I would suggest to offer just a "uninominal" because if there are genus and one epithet it should be a species, if it is unknown infraspecific, we have an own entry.

is there a rank which is highly relevant for phycobank for which this issue needs to be fixed immediately?

#### #3 - 12/20/2018 11:31 AM - Wolf-Henning Kusber

"unknown rank" as uninominal might be important. The others are not in use and not expected to use.

#### #4 - 12/20/2018 03:54 PM - Andreas Kohlbecker

Why is it "unknown rank" and not "unranked". The other vague rank terms are labeled "unranked infraspecific" and "unranked infrageneric"?

#### #5 - 12/20/2018 04:14 PM - Wolf-Henning Kusber

"unranked" is fine as long it points to an uninominal.

done!

For the rank "unknown rank" only the uninomial field is shown

For the remaining tasks formulated in the description we need to create new tickets

**#9 - 04/11/2019 03:19 PM - Wolf-Henning Kusber**

For rank "unknown rank" only the uninomial field is shown. Correct.
