

EDIT - feature request #7977

Registration page layout improved

01/11/2019 03:04 PM - Andreas Kohlbecker

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	cdm-dataportal	Estimated time:	0:00 hour
Target version:	Release 5.5		
Severity:	normal		

Description

The layout of the registration needs to be rendered according to the following scheme:

```
if reg has name
  print name
  print name relations
  line break

if reg has typedesignations
  print type designations each in a separate line
  print specimen table

if reference is a section & has inReference
  print inReference
else
  print reference
line break

print registration date and office
```

- WGB: statt „Registration:“ besser „Registration identifier:“ [http-identifier] DONE

Taxon names in the reference citation string should be displayed in italics, see [#8018](#)

Registration for testing the implementation:

- <http://phycobank.org/100499> (name type and specimen type designations)
- <http://phycobank.org/100014>
