

EDIT - bug #8042

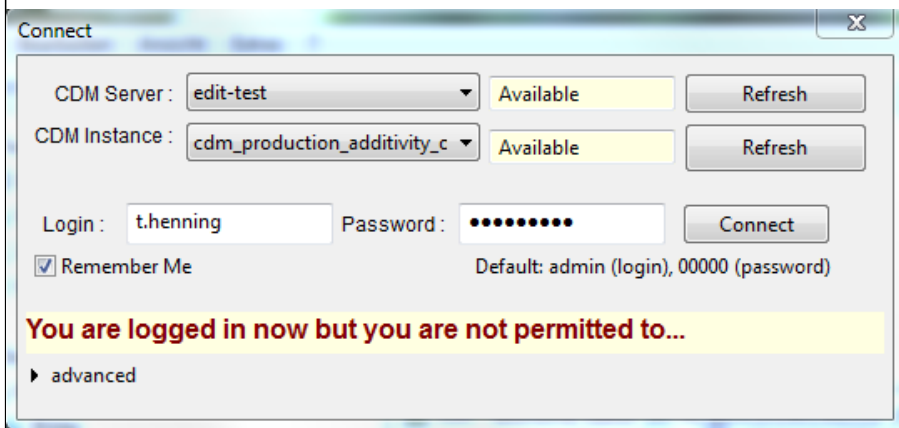

UI is too restricted for users with right Project Manager

01/31/2019 10:12 AM - Patrick Piltzner

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%

Target version:	Release 5.5	Found in Version:	Release 5.5
Severity:	critical		

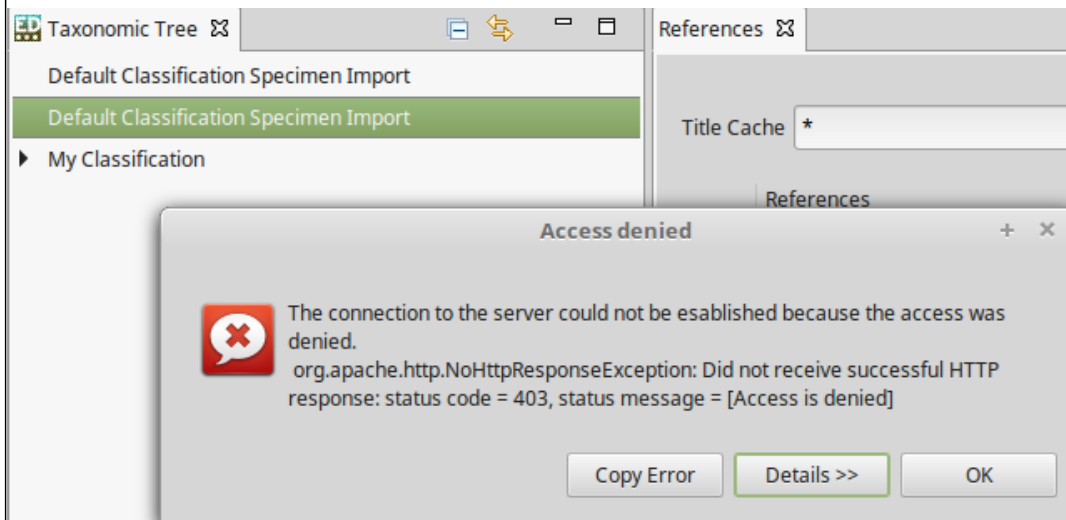

Description

This happened for Tilo when he was trying to log in to additivity_ontology on edit-test.

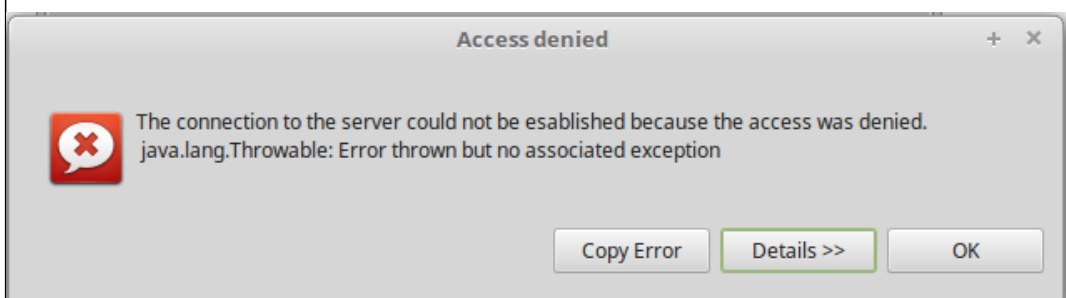

The user is logged in but this strange error message appears in the login dialog.

When trying to, for example, expand a classification, the following message is displayed:

followed up by

His user account had the group *ProjectManager*. Then I assigned it to the *Editor* group he could log in normally.

ref #7972, ref #8042 permitting remoting access to ROLE_PROJECT_MANAGER

History**#1 - 01/31/2019 10:13 AM - Patrick Plitzner***- Description updated***#2 - 01/31/2019 10:18 AM - Patrick Plitzner***- Assignee changed from Andreas Kohlbecker to Andreas Müller***#3 - 01/31/2019 10:20 AM - Andreas Müller***- Assignee changed from Andreas Müller to Andreas Kohlbecker**- Priority changed from New to Highest**- Target version changed from Unassigned CDM tickets to Release 5.5**- Severity changed from normal to critical*

I assign this to AK as it is related to the new rights. We had already discussed that ProjectManager also needs remoting rights.

#4 - 01/31/2019 11:03 AM - Patrick Plitzner*- Related to feature request #7993: Display "Access Denied" dialog in case the remoting service responds with status code = 4xx added***#5 - 01/31/2019 12:00 PM - Andreas Kohlbecker***- Status changed from New to In Progress**- Assignee changed from Andreas Kohlbecker to Katja Luther**- % Done changed from 0 to 10*

I created access to remoting for 'ROLE_PROJECT_MANAGER' but the subject of this ticket is another problem:

Obviously it is still possible to use the Editor after a successful login with a user which lacks the authority to use the remoting service. A user without permission to use the removing service should not be able to do anything related to data in the editor.

By now is see the following options

1. once the login dialog knows the user is not permitted to use the remoting service, it should automatically logout the user. The message displayed to the user needs to be different in this case. "Your credentials are valid but you are not permitted access any data." ... something more compact of course
2. The login dialog will log out the user once the dialog is closed.

I am passing this issue to you now Katja since you are dedicated to [#7993](#)

I don't understand this. In this ticket description it is said that "His user account had the group ProjectManage". So I guess that ROLE_PROJECT_MANAGER should be available for the User. So he had the right to work remote. **This** ticket IMO is not about the correct login behavior which is handled in [#7993](#)

I don't understand this. In this ticket description it is said that "His user account had the group ProjectManage".....

I was referring to the issue subject which is "...users with insufficient rights"

#8 - 01/31/2019 12:12 PM - Andreas Müller

- Subject changed from *UI is overly restricted for users with insufficient rights* to *UI is overly restricted for users with right Project Manager*

- Assignee changed from *Katja Luther* to *Andreas Kohlbecker*

Yes, sometimes the ticket description is more correct then the label.

But do you agree that this is not Katjas issue but rather related to your original ticket (create right remoting or so).

#9 - 01/31/2019 12:18 PM - Andreas Kohlbecker

- Category changed from *taxeditor* to *cdmlib-remote*

- Status changed from *In Progress* to *Closed*

- % Done changed from *10* to *100*

agreed!

#10 - 02/01/2019 03:19 PM - Andreas Müller

- Subject changed from *UI is overly restricted for users with right Project Manager* to *UI is too restricted for users with right Project Manager*

#11 - 02/01/2019 03:20 PM - Andreas Müller

- Tracker changed from *feature request* to *bug*

- Found in Version set to *Release 5.5*
