| <b>Category:</b>  | cdm            | <b>Estimated time:</b> | 0:00 hour     |
| <b>Target version:</b>  | Release 5.38   |                        |               |
| <b>Severity:</b>  | normal         |                        |               |
| <b>Description</b><br>In <a href="#">#7653#note-5</a> there was the wish for an individual publish flag on type designations (especially for text based type designations) => <a href="#">#10458</a> . Probably this also counts for the descriptions and/or description elements. => <a href="#">#10206</a><br><br>Implementation would be similar to the one for TaxonBase, where we removed all taxa and synonyms from webservice results and made the local API configurable if results should return non-public data or not. |                |                        |               |
