| Description | | | |
| In Vaadin, type specimen editor a new line is created when a typ is selected. This functions in FireFox. This does not work in the Chrome browser | | | |
| Originally reported by Heba: "Working with Win10+Croome no new line is created" (Heba) | | | |
| Just an idea: like in other parts of Vaadin menus, it should be possible to add a new type by clicking on a PLUS symbol (this has low priority) | | | |
