

EDIT - bug #8200

Changing title(cache) for factual data set not possible

03/22/2019 02:35 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Patrick Plitzner	% Done:	100%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.6	Found in Version:	
Severity:	normal		
Description			
When trying to change the title of a factual data set in details view the old title is recreated during save.			
Correct behavior has been discussed previously (in context of additivity?) Please refer to it.			
Correct handling of protectedTitleCache needs to be implemented.			
High priority as unexpected behavior and even wanted titles like "Moved from ..." can get lost this way.

I replaced the label with a toggleable cache field.

How it works now: When setting the cache to unprotected (closing the lock), the cache is generated. I checked this by changing the source. If the cache is protected (lock open), it can be edited and changing the source has no effect.

The label in the factual data view is updated when editing the cache. However, when changing the source, the label change in the factual data view is done after saving.

High priority as unexpected behavior and even wanted titles like "Moved from ..." can get lost this way.

The default for the label is unprotected and when moving a description to another taxon the label mentioned above is not generated because of the protected titlecache.

Is this wanted behaviour?

#6 - 04/03/2019 01:36 PM - Andreas Müller

should this be moved back to PP?

#7 - 04/03/2019 01:38 PM - Katja Luther

It's more a general question how this should be handled. So it is a question to all of us.

- Status changed from *Feedback* to *Resolved*

- Assignee changed from *Katja Luther* to *Andreas Müller*

but as this is the general behaviour for titlecaches we may close this ticket? Because it works like titleCaches in all other places.

I don't think that this is correct. It should work according to the requirement and not necessarily according to other places (which have other requirements). The "Moved to" requirement does not exist at other places.

There is a clear regression in the current implementation described in [#7865#note-11](#) . A user requirement got lost so we need to find out 1.) why it got lost and 2.) how it can be reestablished.

To me [#7865](#) and this ticket seem to be mostly duplicates. So I will continue discussion in [#7865](#)

#10 - 04/11/2019 11:30 AM - Patrick Plitzner

- Status changed from *Feedback* to *Closed*

- % Done changed from 50 to 100

Closing this ticket as the remaining issues are duplicated in [#7865](#)
