Target version:	Release 5.8		
Severity:	normal	**Found in Version:**	

Description

In the http://cichorieae.e-taxonomy.net/portal/admin/appearance/settings/zen_dataportal the polyfills folder check reports an error. This is not due to a misconfiguration of the portal but come from using $base_root in zen_dataportal_form_system_theme_settings_alter().

Replacing $base_root by $base_url sould solve the problem.
