<b>Target version:</b>	Release 5.9		
<b>Severity:</b>	normal		
<b>Description</b>			
TaxonNode will have a doubtful flag ( <a href="#">#8281</a> ). We need to implement this in TaxEditor, too.			
Important is that the labels clearly distinguishes the Taxon.doubtful and the TaxonNode.doubtful flag.			
We may call it "placement doubtful" or "provisional placement" like in E+M Berlin Model.

#### History

##### #1 - 05/16/2019 04:54 PM - Andreas Müller

- Due date set to 05/17/2019

- Start date changed from 05/16/2019 to 05/17/2019

- Follows feature request #8281: Doubtful flag for TaxonNode added

##### #2 - 07/19/2019 03:13 PM - Andreas Müller

- Due date deleted (05/17/2019)

- Target version changed from Release 5.8 to Release 5.9

##### #3 - 08/09/2019 12:17 PM - Katja Luther

- Status changed from New to In Progress

##### #4 - 08/09/2019 12:31 PM - Katja Luther

- Status changed from In Progress to Resolved

- Assignee changed from Katja Luther to Andreas Müller

this is implemented now, please review.

**#5 - 08/16/2019 12:24 PM - Andreas Müller**

- Status changed from Resolved to Feedback
- Assignee changed from Andreas Müller to Katja Luther
- Priority changed from New to Highest

The new field should be close to the taxon node information as it is from taxon node. Currently it is in the middle of taxon information.

So we should move "Taxon is published" up and Placement doubtful down.

Also we should indicate the state in the taxon navigator somehow. E.g. by symbol "?" that we normally use for doubtful information. But we use ? already for unplaced. Maybe we find a better symbol for unplaced. If not maybe we use "???" to distinguish. => This might be a separate ticket, don't know how much work it is.

**#6 - 08/16/2019 08:43 PM - Andreas Müller**

Also we should add the doubtful flag to the "Set flags" method in the taxon navigator right click menu.

**#7 - 08/16/2019 08:43 PM - Andreas Müller**

- % Done changed from 0 to 30

**#8 - 08/23/2019 09:51 AM - Katja Luther**

this is in the follow up ticket, therefore we need a service method, an handler and an operation, I think it would be better to do this in next release. It is not much work but still needs some time to implement everything and test it.

ok

**#16 - 08/23/2019 01:45 PM - Andreas Müller**

- Status changed from Feedback to Closed

- Assignee changed from Andreas Müller to Katja Luther

- % Done changed from 70 to 100

**#17 - 08/23/2019 03:34 PM - Katja Luther**

the setDoubtful menu item is now implemented for the navigator, but it was not possible to set the menu to invisible for the classification because when clicking on a classification the menu is removed and afterwards it is not available anymore. So at the moment there is a workaround with disabled menu items for the classification.

**#18 - 08/26/2019 08:42 AM - Andreas Müller**

- Status changed from Closed to Feedback

- % Done changed from 100 to 90

A minor issue: can we have the order of the flags in the same order as in the assistant. That makes it more intuitive. There it is doubtful, unplaced, excluded which is a good order I think.

**#19 - 08/28/2019 03:41 PM - Katja Luther**

- Status changed from Feedback to Resolved

- Assignee changed from Katja Luther to Andreas Müller

the labels are moved

**#20 - 08/29/2019 05:12 AM - Andreas Müller**

- Status changed from Resolved to Closed

- Assignee changed from Andreas Müller to Katja Luther

- % Done changed from 90 to 100

We could still add symbols with the current state of the flag to the "Set Flags" submenu. I created a new ticket for this [#8498](#)
