| After a while the media is not shown anymore.<br>Also there is another issue that sometimes when performing step 5 the details view does not switch to "test2". Which is probably another issue and needs a new ticket.  |                        |                          |           |
