- Description updated

The sort order should follow the order of the type designation status terms either of that in the vocabulary or in a TermTree. At the time if implementing this there were a couple of pieces missing to get this accomplished: TermTree Editor for TypedesignationStatus Terms, Webservice for TermsTrees, Admin UI to define the TermTrees as sort order preset,

To shortcut the development phase of this feature, the order as been defined in the data portal code as:

Epitype
Holotype
Isotype

Lectotype
Isolectotype
Syntype
Paratype

Since this is only a preliminary solution we need to improve this later on ...
