

EDIT - bug #8440

specimen accession numbers link to specimen page

08/02/2019 05:51 PM - Andreas Kohlbecker

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	cdm-dataportal	Estimated time:	0:00 hour
Target version:	Release 5.9	Found in Version:	
Severity:	normal		
Description			
The specimen accession numbers, aka specimen labels, should be clickable links to the specimen page.			
This is needed for the following pages			
<ul style="list-style-type: none">• Name page• Taxon page• Registration page

History

#1 - 08/07/2019 04:50 PM - Andreas Kohlbecker

- Status changed from New to Resolved
- Assignee changed from Andreas Kohlbecker to Wolf-Henning Kusber
- % Done changed from 0 to 50

please review

#2 - 08/08/2019 09:38 AM - Wolf-Henning Kusber

- Assignee changed from Wolf-Henning Kusber to Andreas Kohlbecker
- % Done changed from 50 to 70

Tested for Registration page, name page, and specimen page.

Example: Gomphonella acsiae

Links are working.

Warning in Test portal

Notice: Array to string conversion in theme_item_list() (line 2226 of /var/www/drupal-7.32/includes/theme.inc).

Question: Users could see the difference between the internal and external (stable identifier) link by checking the URL. Is this enough?

#3 - 08/12/2019 04:47 PM - Andreas Kohlbecker

- Status changed from Resolved to Closed

- % Done changed from 70 to 100

This is caused by a bug in the specimen page and is already handled in another ticket.

Question: Users could see the difference between the internal and external (stable identifier) link by checking the URL. Is this enough?

Links which are not marked otherwise are always internal links. For external links we are using the font awesome icon [external-link-alt](#). We should think about replacing the preferredLinkURL as link text by this icon.

As this should subject of another ticket [#8455](#) and I will close this issue now
