Description

Some text field have labels that are not intuitive if you are not familiar with the EDIT platform. Having some information in the text field (in light gray) when the field is empty would help the user to know what kind of information is expected here.

Example:

- "Reference Detail" -> "page in the source"
- "Accession Number" -> "B 10 389432" "DNA 395873"

History

#1 - 11/25/2019 02:51 PM - Andreas Müller

- Assignee changed from Patrick Plitzner to Katja Luther

Try to implement a base functionality.

This is already implemented in taxon search.
