Target version:	Release 5.10		
Severity:	normal	**Found in Version:**	

Description

Reported by Henning on 04.08.19 19:17

Fehler in PhycoBank, 102010, Treptacantha ballesterosii

Beim Species-Namen-Eingeben ist die Gattung nicht vorhanden – kann ja passieren.

Eingabe „Neu“ der Gattung (von der Art aus, ID: 102010 mit (alter Referenz, vielleicht ohne Referez-Typ, oder ein alter Cache-Schnipsel?), beim Speichern Fehler:

Die Referenz muss noch aus IPNI-Zeiten kommen: „Kütz. Phyc. Gen. 1843” oder so ähnlich.
Bei der Suche nach Publikationen konnte ich diese Referenz nicht finden, dafür die korrekte:
„Kützing, F.T., Phycologia generalis oder Anatomie, Physiologie und Systemkunde der Tange. 1843“
Die hat aber keinen Eintrag.
Die Gattung ist jetzt in System, aber über die Liste nicht auffindbar

```

Associated revisions

Revision c80e35c1 - 09/06/2019 06:35 PM - Andreas Kohlbecker

fix #8462 fuffering new blocking registrations for later association with main registration

History

#1 - 08/13/2019 12:04 PM - Andreas Kohlbecker

- Description updated

#2 - 08/29/2019 02:49 PM - Andreas Kohlbecker

the same issue was reported once again:

Test New name entered (not saved) new Basionym, new reference or selected reference -> error
Both names are saved.

#3 - 09/05/2019 05:23 PM - Andreas Kohlbecker

this seems to happen, when the first name editor has been opened for a new name to be registered and has not jet been saved.

#4 - 09/05/2019 05:24 PM - Andreas Kohlbecker

- Related to task #7843: blocking registrations can get lost when first TaxonNamePopupEditor with new name is not saved added

#5 - 09/05/2019 05:24 PM - Andreas Kohlbecker

- Related to task #7332: Registration Workingset Editor: better UI behavior with blocking Registation in same workingset added

#6 - 09/05/2019 05:24 PM - Andreas Kohlbecker

- Related to deleted (task #7332: Registration Workingset Editor: better UI behavior with blocking Registation in same workingset)

#7 - 09/05/2019 05:48 PM - Andreas Kohlbecker

The solution to this problems is tightly related to #7843.

Since I am assuming that we will decide for strategy 3. in #7843 I will for now solve this problem here by creating blocking registrations in preparation for the event when the first name editor is being saved.

#8 - 09/06/2019 06:35 PM - Andreas Kohlbecker

- Status changed from New to Resolved

- % Done changed from 0 to 50

Applied in changeset cdm-vaadin|c80e35c14a41f15fc00f6bfa0cd5c46eadf5b37a.

#9 - 09/06/2019 06:38 PM - Andreas Kohlbecker

- Assignee changed from Andreas Kohlbecker to Wolf-Henning Kusber

please review

#10 - 09/06/2019 06:48 PM - Wolf-Henning Kusber

- Assignee changed from Wolf-Henning Kusber to Andreas Kohlbecker

#11 - 09/06/2019 07:35 PM - Andreas Kohlbecker

... once the server is updated ;-)

#12 - 09/09/2019 03:35 PM - Andreas Kohlbecker

- Has duplicate bug #8374: Save genus generated for a species with a different reference added

#13 - 09/09/2019 06:50 PM - Wolf-Henning Kusber

Tested: new genus with new reference: no problems
Tested: new basionym or replaced synonym with new reference: no problem
Texted: new name with replaced synonym with new reference AND replaced synonym as validation with new reference: no problem

Did I get all possibilities?

#14 - 09/10/2019 08:39 AM - Andreas Kohlbecker

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Kohlbecker to Wolf-Henning Kusber

the orthographic variant could also be tested, but I think your tests have sufficient coverage if you have started a **new registration** for a **new name** for each of the tests.

#15 - 09/10/2019 09:25 AM - Wolf-Henning Kusber

- Status changed from Feedback to Resolved

- Assignee changed from Wolf-Henning Kusber to Andreas Kohlbecker

- % Done changed from 50 to 100

New species name with new genus with new replaced synonym with new orthographic variant successfully tested. I think we can close the ticket.

#16 - 09/10/2019 11:03 AM - Andreas Kohlbecker

- Status changed from Resolved to Closed

agreed.
