EDIT - task #8513

CdmUtils: remove MUST_EXIST_FILE and getResourceFolderSeperator()

09/03/2019 04:08 PM - Andreas Kohlbecker

Status:	Closed		**Start date:**	
Priority:	Highest		**Due date:**

Category:	cdmlib		**Estimated time:**	0:00 hour
Target version:	Release 5.10			
Severity:	normal			

Description

follow up to [#8189](#)

The getResourceFolderSeperator() method is not needed at all. The separator character is only used for building file names which are passed to CdmUtils.getUtf8ResourceReader(). This method is internally using the class loader which knows how to deal with different environments and thus expects / as separator in the filename.
