Description

It is hard to find the editor for taxon relationships. The UI gives not hints.

This view must be enabled via the menu.
I was searching the UI for a couple of minutes until I noticed the menu entry:

| Window | Admin | Help |

- Bulk Editor ▶
- Show View ▶
  - 🔳 Taxon Navigator
  - Polytomous Keys
  - Descriptive Data Set Navigator
  - 🖼 Factual Data
  - 🧳 Media
  - **Concept**
  - Concept Graph
  - 📝 Details
  - 📧 Supplemental
  - Referencing Objects
  - Sessions
  - 🗄 Datasource
- Terms ▶
- Local Preferences

Synonyms, Names (without taxa), Common Names

1 entities four

cinerea sec. Lem,

I Suggest changing the label of the menu entries to "*taxon concept relationship*" or to "*concept relationship*" since the term "Concept" is semantically too broad.
