fix #8581: renaming taxon navigator

History

#1 - 10/10/2019 05:12 PM - Andreas Müller

- Assignee changed from Andreas Müller to Katja Luther

- Target version changed from Unassigned CDM tickets to Release 5.11

Can you check when (and why, in which context) it was changed. I can't remember that we decided to rename it.

To me taxonomic tree sounds more like the very old name for the Classification class.

Also, if we keep the name (but I don't think so) it should be called "Tree(s)" not "Tree"

#2 - 10/11/2019 11:26 AM - Katja Luther

- Status changed from New to Resolved

This change of the name came with the migration to e4. The variable for the title string was name.view.0 (="Taxon Navigator") and in the fragment.e4xmi the variable view.name.2(="Taxonomic Tree") was used.

I switched to name.view.0 again.

#3 - 10/11/2019 11:39 AM - Katja Luther

- % Done changed from 0 to 50

Applied in changeset taxeditor|10dd6a16ad49bd78857ddd4bb86aa25d5a5cdf30.

#4 - 10/11/2019 11:52 AM - Katja Luther

- Status changed from Resolved to Closed

- % Done changed from 50 to 100

I think we do not need a review, so I close this ticket.
