Can you check if this ticket is still open beside the remaining issue described in [#8959](#) ?

I did not have this problem for longer time now (except for the above) so maybe it is partly fixed and the remaining issue is a duplicate for [#8959](#)?

#4 - 06/18/2020 05:33 PM - Andreas Kohlbecker

this is still an open issue

#5 - 06/18/2020 05:34 PM - Andreas Kohlbecker

- Assignee changed from Andreas Kohlbecker to Katja Luther

#6 - 06/19/2020 02:29 PM - Katja Luther

- Status changed from Feedback to Duplicate

- Target version deleted (Release 5.18)

this is the same problem as in [#8959](#) because in the video demonstration the heterotypic synonym is moved to the homot. group of the accepted taxon and after this operation the context menu of the synonym is wrong and persist till the left mouse button is clicked and the selection is set to the synonym. So I set this ticket as duplicate.
