

EDIT - bug #8606

Feature Editor: new term should be focused and named more prominently

10/18/2019 05:59 PM - Andreas Kohlbecker

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Unassigned CDM tickets	Found in Version:	
Severity:	normal		
Description			
<ul style="list-style-type: none">• After adding a new term the term which accidentally is under the cursor is focused, leaving the impression that this is the new term• The new term is hard to find, 'cause it is named Untitled and thus hides itself quite well among the other terms starting with a "U"• Not at least it hard to find because it is located close to the end of the term list• Sub terms are initially hidden because the parent term node is not toggled open			
Suggestions:			
<ul style="list-style-type: none">• name new Terms as "<u>New Term</u>" (the underscore will move it most probably to the top of the list)• Set the focus on the new term• Toggle parent terms open			

History

#1 - 10/18/2019 05:59 PM - Andreas Kohlbecker

- Subject changed from *Feature Editor: new term should be focueds and named more prominently* to *Feature Editor: new term should be focused and named more prominently*

#2 - 10/18/2019 06:00 PM - Andreas Kohlbecker

- Description updated
