

Edit - bug #8628

Add ORCID as person identifier

10/29/2019 01:53 PM - Andreas Müller

Status:	Closed	Start date:	10/29/2019
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	100%
Category:	cdm	Estimated time:	0.00 hour
Target version:	Release 5.11	Found in Version:	
Severity:	normal		
Description			
WGB: wir sollten darüber nachdenken, wie wir ORCID Identifier mit Personen verbinden - das wäre ein zusätzliches Attribut, aber wie können wir das auswerten? Siehe z.B. https://bloodhound-tracker.net/			
AM: We need to discuss if can handle ORCID as simple Identifier with Identifiertype "ORCID" such as other identifiers or if we want to integrate it into the Person class as explicit field. https://support.orcid.org/hc/en-us/articles/360006897674-Structure-of-the-ORCID-Identifier

Could you add an example in the exception message to show how it should look like. And that an x at the end is possible, too.

#6 - 11/11/2019 12:50 PM - Andreas Müller

This is difficult because multiple formats are possible (with http, https, only orcid.org or completely missing all prefix - <https://orcid.org/>, with hyphenw between numbers and without, with checksum or without). This all is recognized by the parser so users may think if giving an example that only one exact format is supported.

But I may try to improve the error messages.
