<b>Description</b>			
Currently when changing a single person team to a person the action is immediately saved and no new search is running afterwards.			
We should implement it same as deduplication:			
<ul style="list-style-type: none"><li>• Only check if possible</li><li>• remove the old records from the list of shown records</li><li>• run operation only when saving</li><li>• run new search afterwards</li><li>• maybe some more necessary tasks</li></ul>			
Same for "Change to Team"
