| <b>Target version:</b>   | Unassigned CDM tickets |                        |           |
| <b>Severity:</b>   | normal                 |                        |           |
| <b>Description</b>   |                        |                        |           |
| Some open minor issues (open new ticket if not immediately fixable):   |                        |                        |           |
| <ul style="list-style-type: none"><li>• Add indentation (whitespace at beginning) for both "Detail" controls. They belong to the above controls "Sensu" and "Misappl. Sec.". In future they will be part of a source sub-subcontrol so they really closely belong together.</li><li>• Also the distance of the labels of these both should be closer. "Sensu" is not in the middle of the following text field but more in the upper part. Therefore there is much distance between "Sensu" and "Detail" though they belong together.</li><li>• At the same time there is very little distance between the first "Detail" and Misapplication Type though these do not belong together. With the later field the relationship part starts. If possible we should have some extra distance between these 2 controls. This way the UI may make clear what is taxon related and what is relationship related</li></ul> |                        |                        |           |
