**New**

**History**

**#1 - 11/06/2019 09:18 AM - Katja Luther**

- Status changed from New to Closed

this seems to be a problem of updated caches because of the IPNI import. After running the cache updater the problem does not appear any more

**#2 - 11/08/2019 10:08 PM - Andreas Müller**

- Target version deleted (Release 5.11)

I remove from milestone as this is a pure data related fix.

We need a new ticket for handling the cache update problem in general.
