

EDIT - bug #8701

Toggle button in GBIF Specimen import does not toggle but is select all/none

11/19/2019 12:32 PM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:

Target version:	Unassigned CDM tickets	Found in Version:	
Severity:	normal		
Description			
Toggle usually inverts the current selection. But the toggle button in the specimen import does either select all or select none. We should have a select all and a select none button. Additionally a real toggle button might be nice to have.
