EDIT - task #8820

Improve BioCase provider selection list

01/20/2020 03:04 PM - Andreas Müller

Status:	New	**Start date:**	
Priority:	New	**Due date:**	
Assignee:	Katja Luther	**% Done:**	0%
Category:	taxeditor	**Estimated time:**	0:00 hour
Target version:	Release 5.46		
Severity:	normal		

Description

Copied from #8721

- The access points should be searchable also by the accesspoint title, For the BGBM Herbarium the webservice lists the following information (#8721#note-3, #8721#note-6)
- ~~the list should also be available for the ABCD preferences~~ (#8721#note-6)
- Is it somehow possible to distinguish if a provider provides DNA data? (#8721#note-6)
- Add recently used endpoints to the top of the list
- Decide how preferences and the list work together, until now only those endpoints were shown that existed in the preferences, do we want to keep it such, if, and only if, a preference exists? And should only the endpoints in the preferences be available or should freetext adding still be available?
- Implement data set filter in specimen import dialog page 2 (#8740)
