

EDIT - bug #8878

Author selection dialog does not work on abbrev author title

Description			
I tried to select an author for a reference via Reference-Detail View-select author dialogue. Search on authors worked only on TeamOrPersonBase.titleCache, not on abbrevTitle. Also the abbrev title was not shown in the dialogue selections (usually we show both there, the long form and the short form)

I assigned to 5.14 as I think correct handling of dialogues is base functionality in the meanwhile and errors should be fixed soon in the field. Please reassign if you think it needs to be moved.
