

EDIT - bug #8880

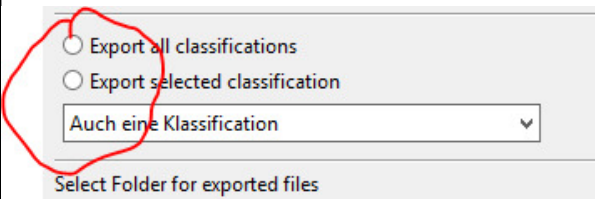

No classification parameter selected for DwC-A export

03/06/2020 03:01 PM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.45	Found in Version:	
Severity:	normal		

Description

... if export is not called on a specific classification:

Always 1 alternative should be selected. In this case it should be "... all classifications" as no classification was chosen at this point.

Note: this differs from CDM light export where we always have to select a classification and therefore the Finish button is not enabled otherwise. However, also there in this case there is only 1 option and therefore it should be automatically selected - but we may discuss if the classification dropdown should be empty instead of preselected if >1 classifications exist.

By the way: currently when not called from a taxon node the option "Export selected subtree(s)" is not visible. I think it is better to only disable it to make clear that in general this possibility exists (not sure if this differs from former requirements but with some time distance I feel this might be the better solution)
