

EDIT - feature request #8895

Specimen page: show specimen description as continuous text

03/17/2020 10:18 AM - Andreas Kohlbecker

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	cdm-dataportal	Estimated time:	0:00 hour
Target version:	Release 5.14		
Severity:	normal		
Description			
For the taxon profile page the function <code>render_description_string(\$description, \$root_nodes, &\$item_cnt = 0)</code> is being used to generate the running text from the description. The same function could be used also for the specimen page.			
Example: Specimen of <i>Rhipsalis clavata</i> f. <i>clavata</i> (http://caryophyllales.org/cactaceae/cdm_dataportal/taxon/9599fa09-b377-43c8-aab2-ad0a02d1da20) : http://caryophyllales.org/cactaceae/cdm_dataportal/occurrence/2738d66b-52a3-44e8-a576-4cdafcd0787f

Is there a link on test for reviewing? Then maybe also Norbert can have a look if it looks as expected.

I don't know, you would have to create such data.

Here is a screenshot from my local system:

Record basis:

PreservedSpecimen

Descriptions:

Flower quantity per areol contemporaneously: 1–3; flower coloration: white; flower size qualitativ: small; flower size quantitativ: 13–23 mm fruit coloration: whitish, pale pink; fruit shape: globose

Preferred stable uri:

<http://herbarium.bgbm.org/object/B100518653>

Kind of unit:

herbarium sheet

Collection:

Herbarium Berolinense

Code:

Herbarium Berolinense

Most significant identifier:

B 10 0518653

Determinations:

[Rhipsalis clavata f. clavata](#),

Accession number:

B 10 0518653

Field data:

[Anonymous collector s.n.](#)

I tried to test but on

http://test.e-taxonomy.eu/dataportal/preview/caryophyllales_spp/cdm_dataportal/occurrence/426ed193-b652-435e-8c1b-ba84542b0b74 I still get the old version. Do we need to change something in the preferences?

das war ein Problem mit dem update des Codes durch Jenkins auf dem Test Server, jetzt ist alles up to date

Open issues:

- Source link like for taxon page descriptive data texts
- correct handling of multiple "exact values"

#10 - 04/08/2020 05:48 PM - Andreas Kohlbecker

- Precedes feature request #8948: Specimen page: specimen description link to description details page added

#11 - 04/08/2020 05:57 PM - Andreas Kohlbecker

- Status changed from *Feedback* to *Closed*

- Source link like for taxon page descriptive data texts --> see [#8948](#)
- correct handling of multiple "exact values" --> see [#8947](#)
