

Edit - bug #8936

Improve default distribution formatting

04/03/2020 03:29 PM - Andreas Müller

Status:	New	Start date:	04/03/2020
Priority:	New	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	0%
Category:	cdm-dataportal	Estimated time:	0.00 hour
Target version:	Unassigned CDM tickets	Found in Version:	
Severity:	normal		
Description			
Currently the default is			
<ul style="list-style-type: none">• Level 0-Label suffix: ":"• Level 1-Item group prefix: ","			
This result in Text like			
"Southern America; Brazil (Brazil Northeast); Caribbean (Cuba)			
which is not correct.			
Better is to use			
<ul style="list-style-type: none">• no (or empty) Level 1-Item group prefix and• Level 0-Label suffix: ": " (with space after colon)			
This results in			
Southern America: Brazil (Brazil Northeast); Caribbean (Cuba)			
which looks much better and it is the configuration that I always ajust when configuring a new portal.
