

EDIT - bug #8961

Using the selection dialogue for nomenclatural references removes the recently used list

Description			
Selecting a nomenclatural reference for a TaxonName seems to delete the list of recently used references.			
WGB: Wenn man einen neuen Namen im NameEditor eingegeben hat, wird anscheinend die vorangehende Liste „vergessen“ (ich hatte gerade vorher syn.-sec.-Referenzen eingegeben, Hartmann 2017).			
			
AM: Da scheint nicht nur bei einem neuen Namen der Fall zu sein.
