@ Katja: Services müssten doch alle verfügbar sein?! Kannst Du den Arbeitsaufwand für eine Implementierung abschätzen, damit das in die Planungen einfließen kann?

Needs discussion if this should be implemented for the search or for simply filtering the resulting table , see [#8181#note-8](#)

Filtering on the table column has a bad performance on large result sets but is probably faster to implement.

The fastest solution might be to simply add the column and use the existing sort functionality for finding the records.

#5 - 06/18/2020 03:53 PM - Wolf-Henning Kusber

A sort function would be fine for administering user's entries by the curator.

#6 - 06/18/2020 03:56 PM - Andreas Müller

- Target version changed from Unassigned CDM tickets to Release 5.18

As the sort function for columns already exists we only need to add the createdBy (and updatedBy?) column. This should be easy to implement.

Therefore I put it to 5.16

#7 - 06/18/2020 03:58 PM - Wolf-Henning Kusber

createdBy AND updatedBy would be great!
