There was still an NPE in the DescriptionHelper. I tried to fix this in f266536e

Maybe we can still improve the layout by not redundantly using "Month" and "Day" but instead having a theses labels as column headers. This will save space.

Also a possible line break in the labels "Extreme Start" and "Extreme End" could help to support even small (in width) details views.

These are minor issues. If we decide to implement them we can also move them to a new ticket if necessary.
