fix #8991 add Feature flowering season

##### Revision 54d8d17d - 05/06/2020 01:06 PM - Andreas Müller

fix #8991 change flowering season to flowering period

#### History

##### #1 - 04/30/2020 11:38 AM - Andreas Müller

- Related to feature request #8802: Implement flowering period for Flora of Cyprus added

##### #2 - 04/30/2020 11:40 AM - Andreas Müller

- Status changed from New to Resolved

- % Done changed from 40 to 50

Applied in changeset [cdm|lib|dfdb2bfd5df2fa7b0ba256c6ec0779aafd5f9a](#).

##### #3 - 05/06/2020 01:03 PM - Andreas Müller

- Subject changed from Add feature "Flowering Season" to Add feature "Flowering Period"

##### #4 - 05/27/2020 10:10 PM - Andreas Müller

- Status changed from Resolved to Closed

- % Done changed from 50 to 100

Works, only on test server some terms are still labeled "Flowering Season" as no update script was written for these temporary data.

On integration the label was updated on all DBs.

##### #5 - 05/27/2020 10:33 PM - Andreas Müller

- Status changed from Closed to Resolved

- % Done changed from 100 to 80

Still need to check if supportsTemporalData is automatically created on production (on test and integration it is not as the feature was added before the datatype existed). Maybe an update script is better to be on the safe side.

Tested on production. Everything correct there.
