

EDIT - bug #8998

Terms created by abcd import should always be part of a vocabulary

05/05/2020 11:49 AM - Katja Luther

Status:	Resolved	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	cdmadapter	Estimated time:	0:00 hour
Target version:	Release 5.15	Found in Version:	
Severity:	normal		
Description			
In abcd import dnaMarker are created if not existing, they are not added to a vocabulary, but should. The vocabulary needs to be created if not existing.

AM:

in algaterra_new gibt es eine Reihe DNA Marker Terme (z.B. „18S V4 rRNA“). Diese sind alle am 28.2.2020 erstellt worden. War das ein Import? Wenn ja, dann muss der Import dringend angepasst werden, so dass IMMER ein Vokabular hinzugefügt wird.

#3 - 05/05/2020 03:01 PM - Andreas Müller

Is this fixed and should be reviewed?

#4 - 05/15/2020 12:17 PM - Katja Luther

- Status changed from New to Resolved

- Assignee changed from Katja Luther to Andreas Müller

yes this should be fixed.
