

EDIT - feature request #9002

Find suitable symbols for excluded, unplaced, placement doubtful

05/06/2020 11:24 AM - Andreas Müller

| Target version: | Release 5.46 | | |
| Severity: | normal | | |
| Description | | | |
| for TaxonNodes (... and maybe also for doubtful, status unknown and published from Taxon(Base)). | | | |
| These symbols should be suitable for Dataportal and TaxEditor. Preferably these symbols should be UTF8-based. For this we need to solve how to handle UTF8 symbols in TaxEditor-Navigator first. | | | |
| As long as UTF8 does not work the current symbols (?, ??, ø) should be used also in data portal. | | | |
| The publish Flag is only relevant for TaxEditor as unpublished data should not appear in the data portal. | | | |

Woudn't it make sense adding getSymbol() to IKeyTerm ?

#7 - 05/28/2020 10:07 PM - Andreas Müller

- Related to deleted (feature request #9003: Find suitable symbols for excluded, unplaced, placement doubtful (dataportal))

#8 - 05/28/2020 10:08 PM - Andreas Müller

- Has duplicate feature request #9003: Find suitable symbols for excluded, unplaced, placement doubtful (dataportal) added

#9 - 05/28/2020 10:14 PM - Andreas Müller

Symbol is now handled in cdmlib, however we still want to find better symbols and a way how to show them in TaxEditor. Especially we need a symbol for placement doubtful which differs from taxon status doubtful.

#10 - 05/28/2020 10:18 PM - Andreas Müller

Woudn't it make sense adding getSymbol() to IKeyTerm ?

Until now we need symbols only for very few EnumTerms. Maybe we should better add a new interface IHasSymbol to mark all IEnumTerms for which symbols are needed.

WGB:

die Lösung für dieses Ticket hängt von der breiteren Diskussion dieser Kategorien und ihrer Verbindung mit den sec.- bzw. placement-Referenzen ab. Ich weiß aber nicht, welches Ticket das ist bzw. ob das schon eins ist.
