EDIT - feature request #9005

Make the TaxonNode flags alternatives and change excluded notes to status notes

05/06/2020 11:59 AM - Andreas Müller

Status:	Closed		**Start date:**	
Priority:	Highest		**Due date:**

Target version:	CDM UML 5.15			
Severity:	normal			

Description

Currently we have unplaced, excluded and placement doubtful as flags.

It is expected that these neve occurr in parallel therefor they can be handled as enumeration. If in future it turns out that they are needed in parallel it can be changed to an enumset without bigger problems.

This way also the notes which are currently limited to be notes on the excluded flag could be extended to become general status notes.
